"No te suelta".

Originally from Argentina but residing in Europe since 2012, we are a world traveling music and comedy band.

Our musical style is called "Cumbia del monte", a variation of the south-american cumbia, which we fusion with other Latin rhythms in our own original songs, especially designed to dance a lot.

By using superhero costumes in our concerts, we develop a series of humorist acts with social and emotional content, where the happiness is always present.

Our musical show creates a constant interaction with the public trough games, easy chorales songs and shameless dances, so everybody can take part, reaching out their inner child.

In the past 6 years we have taken part in festivals and concerts in more than 20 countries, in three continents (South-America, Asia and Europe).
